WITH THE SUPPORT OF

TRADE FAIR AND INTERNATIONAL CONFERENCE

GLOBAL CHALLENGES THROUGH THE PRISM OF RURAL DEVELOPMENT IN THE SECTOR OF AGRICULTURE AND TOURISM

Papers must be written in English. The maximum number of authors per paper is three, while the maximum number of papers per author is two.

Fair and Conference Goals:

- ✓ Development and promotion of the common understanding of the policy of agriculture and rural developmemt;
- ✓ Help in improving implementation structures and systems for agriculture and rural development, especially cross-border cooperation;
- ✓ Improvement of understanding and using implementation instruments for agriculture and rural development;
- ✓ Identification and exchange of information and implementation of good practices in agriculture and rural development;
- ✓ Connecting representatives of Serbian scientific community with the peers from abroad, representatives of companies, non-government sector and various public institutions, and introducing research results and innovations in topic areas;
- ✓ Improving knowledge base for rural, sustainable and global development;
- ✓ Support and harmonization of the implementation of the goals of continual rural development in the society, economy and environment;
- ✓ Strengthening scientific, technological and innovative capacities;
- ✓ Recommendations for the improvements in education, research, environmental management and sustainable development;
- ✓ Spreading and intensifying professional communication and building a network for joint research, innovation and education;
- ✓ Increasing the number of small and medium-sized enterprises (SMEs) which will use the fair for their promotion and business development;
- ✓ Increasing the number of young people, women and persons with disabilities, who will find new or additional employment in the tourism and agriculture sector;
- ✓ Strengthening economic inclusion of marginalized rural populations;
- ✓ Support to rural, formal and informal sector and support to nurturing sustainable practices of natural resources management;
- ✓ Exchange of experiences based on best practices.
